

I want the law to stay as it is. I signed up for the no call list because i was sick of coming home everynight from work and to have myself or my family constantly answering the phone at inconvenient times for a telemarketer. If i wanted the bank or credit card companies even telephone companies to call me i would ask them. The choice to call them should be up to me and not for them to call 2 or 3 times a night for something that I don't want and they didn't cross me off their list. Why should i be inconvenienced. The only reason anyone would want to change this law would be for a profit. Someone wants to make more money by calling weak people who will fall for their schemes or marketing gimmicks. I don't have time for the games. Keep the law as it is. Don't let profit get ahead of what the people of wi really want. THE NO CALL LIST MUST STAY AS IT IS CURRENTLY!!!!

Thanks Lisa Delvaux
